

Yaroslav O. Halchenko

Mailing Address: PBS Department, Dartmouth, 419 Moore Hall, Hinman Box 6207, Hanover, NH 03755 USA

Internet Addresses: career@onerussian.com, <http://www.onerussian.com>, <http://www.linkedin.com/in/yarik>

Education

Ph.D. student. GPA 4.00

**Computer Science Dept,
NJIT (NJ Institute of Technology)**

January 2003 – May 2009

Newark NJ, USA

PhD degree in Computer Science awarded in May 2009.

MS student. GPA 4.00

**Computer Science Dept,
UNM (University of New Mexico)**

January 2000 – December 2003

Albuquerque NM, USA

MS degree in Computer Science after successfully passing MS qualification examination in August 2003.

Graduate student

**Computer Systems Dept,
VSTU (Vinnitsia State Technical University)**

1998 – 1999

Vinnitsia, Ukraine

Master's degree in Laser and Optoelectronic Engineering.

Student

**Computer Systems Dept,
VSTU**

1994 – 1998

Vinnitsia, Ukraine

Bachelor's degree in Laser and Optoelectronic Engineering with honors.

High School Student

**Physical and Mathematical Gymnasia
No.17**

1992 – 1994

Vinnitsia, Ukraine

Graduated with honors.

High School Student

Physical and Mathematical Correspondence School

1991 – 1994

Moscow Physical Engineering Institute

High School Student

Aerospace Correspondence School "Soyuz"

1991 – 1992

Moscow Physical Engineering Institute

Work Experience

Postdoctoral Fellow

**Dept of Psychological and Brain Sciences,
Dartmouth College**

May 2009 – present

Hanover NH, USA

Working with Dr. James V. Haxby. Projects: visual objects processing, multimodal and multivariate analysis for functional neural data: <http://www.pymvpa.org>, software deployment and reproducibility in cognitive neuroscience: <http://neuro.debian.net>.

Research Assistant
Mind/Brain RUMBA Laboratory
<http://www.rumba.rutgers.edu>

August 2002 – May 2009
Psych. Department, Rutgers-Newark NJ., USA

Projects:

- Predictive decoding of the neural data from different imaging modalities (e.g. EEG, fMRI) to gain better understanding of perception (e.g. auditory) and cognitive (e.g. category specific processing) neuroscientific problems
- Graphical modeling of functional brain organization
- Fusion of multiple functional brain imaging modalities (fMRI/EEG) to gain better understanding and localization of underlying neural activity

Debian Developer
Open Source Community (Debian GNU/Linux)
<http://www.debian.org>

December 2005 – present

Packaging and maintenance of FOSS software within the Debian GNU/Linux OS.

GNU/Linux Cluster System Administrator
Rutgers-Newark

September 2005 – May 2009
Psych. Department, Rutgers-Newark NJ., USA

Deployment and maintenance of 27 node high availability AMD Opteron based cluster.

Research Assistant
Brain and Computation Laboratory
<http://www-bcl.cs.unm.edu>

June 2000 – July 2002
CS Dept., UNM Albuquerque NM, USA

Have been working on deploying ICA (Independent Component Analysis) techniques in processing of MEG (Magnetoencephalography) data which are part of the DreamMon project.

Teaching Assistant
CS Dept., UNM

January 2000 – May 2000
Albuquerque NM, USA

Teaching Assistant for “Intermediate Programming” (CS251) class with Prof. David Ackley (CS Department, UNM).

Research Assistant
VSTU

1993 – 1997
Vinnitsya, Ukraine

Part-time designer and software developer of the system for diagnostics of mobile segments in vertebral column, which later was utilized in national hospitals of Ukraine.

Software Developer
Liana Company

April 1996 – October 1997
Vinnitsya, Ukraine

Part-time software developer of automated system in Planned-Economic Department of Vinnytsia Chemical Plant (Himprom).

Scholarship Awards

- The International Scientific Fund Representatives in Ukrainian Studentship Award. **1998-1999**
- The International Soros Science Educational Program (ISSEP) Studentship Award. **1995-1996**

Main Awards and Honors

- Ukraine** **1996**
The Academy of Sciences of Ukraine **awarded the work** “Information-Measuring System With Optical Transformation Biomedical Information”.
- Bucharest, Romania** **October 1995**
6th place in ACM South-Eastern European Regional Programming Contest. **1st place** at VSTU.
- Kharkiv, Ukraine** **April 1995**
4th place in Physics Olympiad among Colleges and Universities of Ukraine. **1st place** at VSTU.
- Vinnitsya, Ukraine** **1994**
1st place in the Regional Contest for Programming.
- Ukraine** **1994**
1st place in Competition among teenagers for the best computer program. Became a **Member of the Ukraine Small Academy of Sciences**.
- Vinnitsya, Ukraine** **1993**
1st place for the best solution of physical and mathematical problems in the competition organized by Moscow Physical Engineering Institute.
- Vinnitsya, Ukraine** **1993**
3rd place in the Regional Physics Olympiad.

Projects and Contributions

- Cofounder and core developer of NeuroDebian project: <http://neuro.debian.net>
- Cofounder and core developer of PyMVPA (Python Multivariate Pattern Analysis): <http://www.pymvpa.org>
- Contributor to various FOSS projects: <http://www.ohloh.net/accounts/yarikoptic>
- Debian developer overseeing dozens of packages (<http://qa.debian.org/developer.php?login=yoh>) and participating in Debian Science and Debian Med projects.

Skills

Programming:

- More than 10 years of experience with software development under Linux OS: C/C++(g++), Python, bash/awk/sed, CVS/SVN/git, gdb/pydb/bashdb/ddd, valgrind, gprof, etc.

- Past (1992-2000) working experience in software development on MS DOS, Windows 3.x and Windows 9x platforms: Turbo Pascal, VBA (Visual Basic for Applications), and Inprise Delphi
- Past (2000-2002) experience with Java (Java Swing, RMI, JDBC, Exemplar project: <http://apsp.onerussian.com>), logic and functional languages: prolog, SML, elisp
- Past (2000-2004) working experience in database design: DBE, ODBC, Postgresql, MySQL APIs
- Strong background in object-oriented programming methods and Design Patterns
- Experienced writer of high quality code. Coding practice includes thorough code reviews, detecting defects, careful debugging of own code and code of others, profiling, versioning, unit-, doc- and regression testing, and other techniques

Administration:

- Centralized systems configuration: cfengine2
- Linux-based (GNU Debian) network communication and monitoring: TCP/IP, SNMP, IPTables (shorewall), DNS (bind), NAT, NFS, SSH, SMTP (exim v4), Ganglia, NTop, etc.
- Web-server administration: apache/apache2
- Resource management and scheduling of HP/HA computing clusters: torque, maui, SGE
- Virtualized (vserver, VirtualBox) and automated (FAI) deployment solutions
- Hardware: hardware and software RAIDs, network adapters and switches (interface bonding), APCs, desktop or rack-mounted servers; benchmarking, configuration optimization, maintenance and troubleshooting

Web Design and Others:

- Basic web-designer skills: HTML, CSS, PHP
- Strong background in graphical design and desktop publishing: \LaTeX , Inkscape, GIMP, OpenOffice.org
- Excellent knowledge of mathematics and numerical methods.

- *Y.O. Halchenko, M. Hanke, J.V. Haxby, S. Pollmann, R.D. Raizada.* “Having trouble getting your Nature paper? Maybe you are not using the right tools?” Annual Meeting of Society for Neuroscience, USA 2011.

Professional Activities

- Active reviewer for IEEE Transactions on Signal Processing, Neural Computation, Neuroimage, and Neurocomputing
- Active mentor for new Debian contributors
- Active member of the INCF “Standards for Datasharing” task force

Languages

Fluent in Russian, Ukrainian and English.
